EXPERIENCE

Volunteer Web Developer — New Muslim Aid Foundation

2024 – Present

- Serve as a volunteer full-stack web developer for a nonprofit organization supporting new Muslims and Islamic education initiatives in Bangladesh, building and maintaining multiple production web platforms.
- Collaborated with a development team on the organization's main website (Next.js 14, Sanity CMS, next-intl for Bengali/English localization): implemented payment gateway integration for online donations, designed and built several UI pages, and contributed backend functionality.
- Independently designed, developed, and deployed three full-stack platforms for affiliated organizations, including a Learning Management System and organizational management platforms — see Projects section for details.
